ABOUT US

About us

IP-CVR (Intelligence & Political Center for Voter Research) is a data-driven political strategy, campaign management and public-opinion research firm serving Andhra Pradesh and Telangana — from the village to the state. Decisions driven by people's voice, not guesswork. 14 services, one team. Every project is strictly confidential.

Data honesty

We never alter survey results for anyone. We report what the data says.

Scientific

Collection down to district, constituency, mandal and village — online plus a trained field team.

Confidential

The name and phone number you give are never shared with any client or party. Reports carry only aggregate numbers.

OUR MISSION

Our mission

Everyone talks about politics; no one asks the people. IP-CVR exists to fill that gap — every village's voice should become data, and every decision should stand on that data.

LEADERSHIP

Leadership team

Akumalla Chinna Kasaiah

(alias Khasim)

Founder · Political Strategist & Campaign Designer

Founded IP-CVR to bring honest, scientific and people-first data to politics across the two Telugu states. Leads the firm's strategy and campaign design.
