01 Executive Summary

కీలక ఫలితాల సారాంశం · Key findings at a glance

KEY FINDING

Party A is on track to win Demo Nagar Municipality.

Party A leads in **18 of 30 wards** and needs **16** to control the council and the Chairman seat — leaving **2 extra**. Across all wards Party A averages **53.8%** against Party B's **41.2%**. Projected seat range: **Party A 16–20 · Party B 9–13** (±).

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23
24 25 26 27 28 29 30

Sure/Lead A · Lead B · Others decisive · Tie

✔ IMMEDIATE ACTIONS

1. Finalise strong candidates in the 4 closest wards early.
2. Stop internal friction in wards 2 and 12; make leaders work together.
3. Finish water, drain and road works before the election is announced.
4. Focus booth teams on the 6 close-fight wards.

⚠ KEY RISKS

1. A local independent is quietly building his own group.
2. Party A votes may split in wards 30 and 35.
3. Thinnest leads: ward 12 (+0.6), ward 11 (+1.1).
4. If the "ahead" wards slip, the Chairman seat is at risk.

10	8	6	6
✔ SURE WIN (20+ PTS)	▲ AHEAD (<20 PTS)	◆ CLOSE FIGHT	▼ BEHIND

SAMPLE · DEMO DATA

02 Scope, Sources & Methodology

పరిధి, వనరులు, పద్ధతి · How we build this report

Item	Detail (sample)
Survey area	Demo Nagar Municipality, Sample Assembly Constituency, Demo District
Survey period	Illustrative 10-day field window
Wards covered	All 30 wards of the municipal structure
Method	Online responses + trained field surveyors (stratified random sampling), with location & voice consent
Verification	One response per phone number · duplicates and fakes removed
Outputs	Ward-wise vote-share, lead/margin, seat projection, battleground & action plan

How to read the numbers

- **Lead** = Party A % minus Party B %. Positive = A ahead; negative = B ahead.
- **Swing needed** = share of voters who must switch to flip a ward — half the gap.
- **Others > gap** marks wards where independents can decide the result.
- **Chairman seat** needs a majority of ward councillors; local legal rules apply.

LIMITATIONS: Field estimates carry a statistical margin of error (typically ±a few points for small ward samples), so narrow leads should be read as "too close to call". Estimates describe opinion on the survey dates and are not a guarantee of the election result. **This sample uses invented data.**

COLOUR CODE

- Party A (Alliance)
- Party B
- Others / Independents

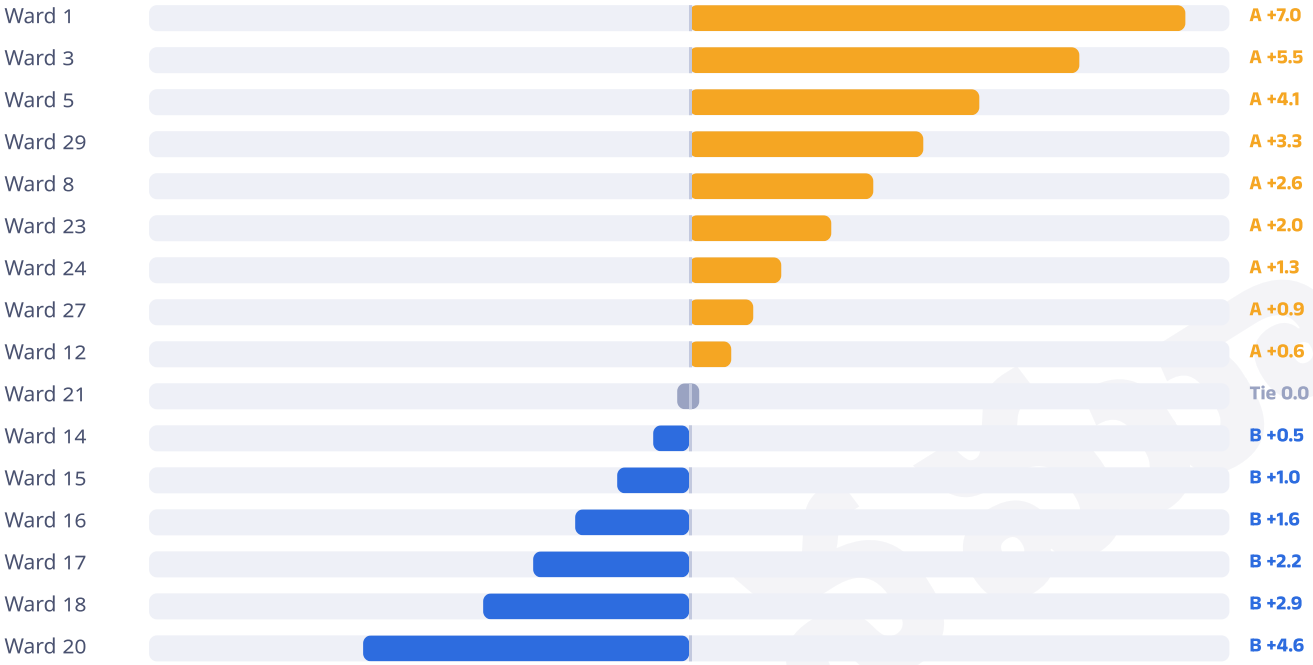

WARD STATUS BADGES

- ● Sure win (+20 or more)
- ▲ Ahead (lead under 20)
- ◆ Close fight (under 5)
- ▼ Behind

SAMPLE · DEMO DATA

03 Margin of Lead by Ward

వార్డుల వారీ ఆధిక్యం · Who leads each ward, and by how much

Reading this chart: bars to the right (orange) show Party A's lead; bars to the left (blue) show Party B's lead. The longer the bar, the safer the ward. Short bars near the centre are the battlegrounds. **Sample data only.**

SAMPLE · DEMO DATA

04 Battleground Wards

కీలక పోరు వార్డులు · Where the election will be decided

Ward	Leader	Lead (pts)	Status	What to do (sample)
Ward 12	Party A	+0.6	Close	Settle local leader dispute; door-to-door now
Ward 13	Tie	0.0	Tie	Decide candidate early; target silent voters
Ward 27	Party A	+0.9	Close	Complete pending civic works
Ward 28	Party B	+0.7	Close	Counter with strong local face
Ward 25	Party B	+1.1	Close	Address top 2 local grievances
Ward 11	Party A	+1.1	Close	Protect base; stop vote split

PATH TO THE CHAIRMAN SEAT

Party A has **10 sure wards**. Winning **6 of the close-fight wards** takes it to 16 — the majority. Losing the "ahead" wards puts the Chairman seat at risk.

OTHERS / INDEPENDENTS

In 2 wards the Others/Independent vote is bigger than the A–B gap, so independents can decide the outcome there. Watch wards 21 and 22.

Remember: every ward name, number and margin here is invented to show the report format. Your real survey will name actual wards, real leaders and verified field numbers — shared only with you.

05 About IP-CVR

సంస్థ గురించి · What we do and how to reach us

IP-CVR (Intelligence & Political Center for Voter Research) provides data-driven political strategy, campaign management and public-opinion research across **Andhra Pradesh and Telangana** — from the village to the state. 14 services, one team. We report what the data says — honestly and confidentially.

మీ నిజమైన రిపోర్ట్ ఇలా ఉంటుంది. అసలు డేటాతో. పూర్తి గోప్యంగా.

This is a sample to show our report format. Your real constituency / ward report uses verified field data and is delivered strictly confidentially — to you alone.

OUR SERVICES

Election surveys (pre-poll · exit · opinion) · political strategy & management · campaign & booth management · digital & social media · image building · voice-call outreach · analysis reporting · big-data voter management.
